

PREVIEW QUESTION BANK

Module Name : ANIMAL SCIENCES-ENG
Exam Date : 09-Jul-2023 Batch : 10:00-12:00

Sr. No.	Client Question ID	Question Body and Alternatives	Marks	Negative Marks
Objective Question				
1	2901	<p>Given below are two statements:</p> <p>Statement (I) : Livestock sector plays a multidimensional role in agricultural development of India and has contributed immensely to the national GDP.</p> <p>Statement (II) : Livestock sector has created a significant impact on equity in terms of employment and poverty alleviation.</p> <p>In light of the above statements, choose the <i>most appropriate</i> answer from the options given below.</p> <ol style="list-style-type: none"> 1. Both Statement (I) and Statement (II) are true. 2. Both Statement (I) and Statement (II) are false. 3. Statement (I) is true but Statement (II) is false. 4. Statement (I) is false but Statement (II) is true. <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
Objective Question				
2	2902	<p>Given below are two statements based on All India Livestock Survey 2012 & 2019 :</p> <p>Statement (I) : There was about 10% increase of buffaloes in 2019</p> <p>Statement (II) : There was about 10% decrease of goats in 2019</p> <p>In light of the above statements, choose the <i>most appropriate</i> answer from the options given below.</p> <ol style="list-style-type: none"> 1. Both Statement (I) and Statement (II) are correct. 2. Both Statement (I) and Statement (II) are incorrect. 3. Statement (I) is correct but Statement (II) is incorrect. 4. Statement (I) is incorrect but Statement (II) is correct. <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p>	4.0	1.00

A4 : 4

Objective Question

3	2903	<p>Given below are two statements:</p> <p>Statement (I) : Pashmina, much finer speciality fibre is produced from goats reared in high altitude Himalayas.</p> <p>Statement (II) : Pashmina fibre in fact has originated from India.</p> <p>In light of the above statements, choose the <i>most appropriate</i> answer from the options given below.</p> <ol style="list-style-type: none"> Both Statement (I) and Statement (II) are correct. Both Statement (I) and Statement (II) are incorrect. Statement (I) is correct but Statement (II) is incorrect. Statement (I) is incorrect but Statement (II) is correct. <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
---	------	---	-----	------

Objective Question

4	2904	<p>Who has been made as 'Nodal Agency' in 2008 by 'Indian Council of Agricultural Research' for the registration of new breeds of livestock and poultry species?</p> <ol style="list-style-type: none"> NBAGR, Karnal NDRI, Karnal NDDDB, Anand CSWRI, Avikanagar <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
---	------	---	-----	------

Objective Question

5	2905		4.0	1.00
---	------	--	-----	------

A homogenous, sub-specific group of domestic livestock with definable and identifiable external characteristics that enable it to be separated by visual appraisal from other similarly defined groups is called as

1. Cross-bred
2. Breed
3. Strain
4. Race

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

6 2906

4.0 1.00

Given below are two statements:

Statement (I) : Assamese buffaloes have 48, 49 and 50 chromosomes.

Statement (II) : Manipuri buffaloes have 48 chromosomes, and are true swamp buffaloes

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

7 2907

4.0 1.00

Given below are two statements:

Statement (I) : A large scale introduction of Russian Merino and the Rambouillet in Jammu and Kashmir over last 5 decades has resulted in the development of a new breed, Kashmir Merino.

Statement (II) : Kashmir Merino has lower wool yield than Merino and is not suitable under long migration.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

8	2908	<p>The Bannur (or Bandur) breed is prized for meat. It has been developed through intensive selection from which breed by the farmers of Karnataka state?</p> <ol style="list-style-type: none"> 1. Nilgiris 2. Karakul 3. Mandya 4. Caracul 	4.0	1.00
		A1 : 1		
		A2 : 2		
		A3 : 3		
		A4 : 4		

Objective Question

9	2909	<p>What is referred-to for the ‘culling of uneconomical stock at proper time’?</p> <ol style="list-style-type: none"> 1. Weeding 2. Heeding 3. Auction 4. Isolation 	4.0	1.00
		A1 : 1		

A2 : 2

A3 : 3

A4 : 4

Objective Question

10	2910	<p>What is recommended to sprinkle on the new born calf's body in order to induce its licking by the dam?</p> <ol style="list-style-type: none"> 1. Luke warm water 2. Tobacco powder 3. Dam's urine 4. Common salt 	4.0	1.00
		A1 : 1		
		A2 : 2		
		A3 : 3		
		A4 : 4		

Objective Question

11	2911	<p>What should be administered to calf in the absence of dam's colostrum in order to develop passive immunity?</p> <ol style="list-style-type: none"> 1. Dam's serum - intravenously 2. Dam's blood - intramuscularly 3. Dam's milk - orally 4. Dam's skimmed milk - orally 	4.0	1.00
		A1 : 1		
		A2 : 2		
		A3 : 3		
		A4 : 4		

Objective Question

12	2912		4.0	1.00
----	------	--	-----	------

Given below are two statements:

Statement (I) : Heifers of zebu breeds mature and calve earlier as compared to European breeds.

Statement (II) : The size and age of the heifers should be the basis for giving first service.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

13 2913

Given below are two statements:

Statement (I) : Duration of heat is shorter in zebu cattle as compared to European breed.

Statement (II) : The fact that heat period often occurs at night, complicates the breeding management.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

4.0 1.00

Objective Question

14 2914

4.0 1.00

Given below are two statements:

Statement (I) : Cessation of estrous, alteration in temperament and fattening tendency are some usual signs of pregnancy in heifers.

Statement (II) : Gestation period in buffaloes is 280 to 285 days.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

15	2915	<p>Which of the methods of drying a cow during lactation is considered best?</p> <ol style="list-style-type: none"> 1. Stopping milking forth-with 2. Incomplete milking 3. Intermittent milking 4. Suckling by calf <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
----	------	--	-----	------

Objective Question

16	2916	<p>What is inappropriate with respect to breeding of ewes and does?</p> <ol style="list-style-type: none"> 1. Topping period should not exceed 3 months 2. Breeding of ewes/does should be so regulated as to obtain crop throughout the year 3. It is good to put ram with ewes at night during tugging period 4. It is good not to allow ram with ewes during grazing during tugging period <p>A1 : 1</p>	4.0	1.00
----	------	---	-----	------

A2 : 2

A3 : 3

A4 : 4

Objective Question

17 2917

Which of the followings should not be the feature/ provision at the livestock farm?

1. Good drainage, plenty of fresh air, sun-shine and shelter from inclement weather
2. Site away from human habitations, but near to market
3. Ample water and electricity but not the amenities for farm staff
4. Location near to all weather road

A1 : 1

A2 : 2

A3 : 3

A4 : 4

4.0 1.00

Objective Question

18 2918

For Mehsana buffalo bull station, what should be the optimum floor space requirement (covered and open area, respectively) per bull?

1. 10 m² and 100 m²
2. 12 m² and 120 m²
3. 15 m² and 150 m²
4. 20 m² and 200 m²

A1 : 1

A2 : 2

A3 : 3

A4 : 4

4.0 1.00

Objective Question

19 2919

What should be the speed of practically calm wind?

1. 1 km / hr
2. 3 km / hr
3. 5 km / hr
4. 9 km / hr

A1 : 1

4.0 1.00

A2 : 2

A3 : 3

A4 : 4

Objective Question

20 2920

4.0 1.00

Given below are two statements:

Statement (I) : Direct sunlight has germicidal action due to UV rays.

Statement (II) : Direct sunlight has germicidal action due to dehydrating effect of its thermal rays.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

21 2921

4.0 1.00

Given below are two statements:

Statement (I) : Size of buffalo ovaries is generally smaller than cattle.

Statement (II) : Right ovary of cow and buffalo is slightly smaller than the left.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

22	2922	<p>Which of the following statements is wrong?</p> <ol style="list-style-type: none"> 1. Penis has the dual function 2. Terminal part of boar's penis is spiralled 3. Intromission in bull is of shorter (about 2 seconds) duration 4. Secretion of accessory sex glands mixes with spermatic fluid in penile urethra <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
----	------	---	-----	------

Objective Question

23	2923	<p>What term defines for "the age at which the generative organs become functional and reproduction may occur"?</p> <ol style="list-style-type: none"> 1. Puberty 2. Fecundity 3. Mating 4. Spermiogenesis <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
----	------	--	-----	------

Objective Question

24	2924	<p>What is the correct order of occurrence of 4 phases of oestrus cycle ?</p> <ol style="list-style-type: none"> 1. Proestrus – Oestrus – Dioestrus – Metestrus 2. Oestrus – Metestrus – Proestrus – Dioestrus 3. Proestrus – Oestrus – Metestrus – Dioestrus 4. Dioestrus – Metestrus – Proestrus – Oestrus <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
----	------	--	-----	------

Objective Question

25	2925	<p>Which agency implemented world's biggest dairy development project in three phases in India?</p> <ol style="list-style-type: none"> 1. National Dairy Development Board 2. State Cooperative Milk Marketing Federations 3. National Dairy Research Institute 4. Indian Veterinary Research Institute <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
----	------	---	-----	------

Objective Question

26	2926	<p>Given below are two statements:</p> <p>Statement (I) : Breed-wise Report of Livestock and Poultry, based on 20th Livestock Census (India) covered 184 indigenous/exotic breeds of 19 selected species.</p> <p>Statement (II) : Basic Animal Husbandry Statistics (2022) was published by Department of Animal Husbandry and Dairying; Ministry of Fisheries, Animal Husbandry & Dairying; Government of India in March 2023.</p> <p>In light of the above statements, choose the <i>most appropriate</i> answer from the options given below:</p> <ol style="list-style-type: none"> 1. Both Statement (I) and Statement (II) are correct. 2. Both Statement (I) and Statement (II) are incorrect. 3. Statement (I) is correct but Statement (II) is incorrect. 4. Statement (I) is incorrect but Statement (II) is correct. <p>A1 : 1</p> <p>A2 : 2</p> <p>A3 : 3</p> <p>A4 : 4</p>	4.0	1.00
----	------	---	-----	------

Objective Question

27	2927		4.0	1.00
----	------	--	-----	------

Given below are two statements:

Statement (I) : According to Breed-wise report of Livestock and Poultry, based on 20th Livestock Census (India); Gir and Lakhimi have the highest population among all the cattle breeds.

Statement (II) : Out of the total Indian buffaloes (according to Breed-wise Report of Livestock and Poultry based on 20th Livestock Census of India), 20.3% are pure bred, 34.3% are graded and the remaining 45.4% are non-descript.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

28 2928

Given below are two statements:

Statement (I) : As per the 20th Livestock Census, 13.83% of the Indian livestock population is sheep.

Statement (II) : Among the pure exotic breeds, Corriedale is having a share of 17.3% (Breed-wise report of Livestock and Poultry based on 20th Livestock Census of India).

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A2 : 2

A3 : 3

A4 : 4

Objective Question

32 2932

What is the median age of the 7 cows whose ages are listed below?

11, 10, 13, 11, 12, 16, 14

1. 10
2. 11
3. 16
4. 12

A1 : 1

A2 : 2

A3 : 3

A4 : 4

4.0 1.00

Objective Question

33 2933

A population has a mean (μ) of 45 and a standard deviation (σ) of 8. After 5 points are added to every score in the population, what are the new values for the mean and standard deviation?

1. $\mu=45$ and $\sigma=8$
2. $\mu=45$ and $\sigma=13$
3. $\mu=50$ and $\sigma=8$
4. $\mu=50$ and $\sigma=13$

A1 : 1

A2 : 2

A3 : 3

4.0 1.00

A4 : 4

Objective Question

34 2934

If the scores on a test have a mean of 36 and a standard deviation of 4, what is the z-score for a score of 26?

1. 2.5
2. 25
3. -2.5
4. -0.25

A1 : 1

A2 : 2

A3 : 3

A4 : 4

4.0 1.00

Objective Question

35 2935

A population has a $\mu=50$ and $\sigma=10$. If these scores are transformed into z-scores, the population of z-scores will have a mean and standard deviation of

1. $\mu=50$ and $\sigma=10$
2. $\mu=50$ and $\sigma=1.96$
3. $\mu=1$ and $\sigma=0$
4. $\mu=0$ and $\sigma=1$

A3 : 3

A4 : 4

4.0 1.00

Objective Question

36 2936

4.0 1.00

Given below are two statements:

Statement (I) : Vrindavani crossbred cattle has been evolved at CIRC, Meerut in collaboration with Military Farms of the country.

Statement (II) : A low heritability is desired in breeding for the rapid progress.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

37 2937

Assuming Hardy-Weinberg equilibrium, the genotypic frequency of heterozygotes, if the frequency of the two alleles at the gene being studied are 0.6 and 0.4, will be

1. 0.80
2. 0.64
3. 0.48
4. 0.32

A1 : 1

A2 : 2

A3 : 3

A4 : 4

4.0 1.00

Objective Question

38 2938

A single strand of DNA has an A+T/C+G ratio of 1.67. The ratio in the complementary strand would be

1. 0.60
2. 1.33
3. 1.45
4. 1.67

A1 : 1

4.0 1.00

A2 : 2

A3 : 3

A4 : 4

Objective Question

39 2939

4.0 1.00

Given below are two statements:

Statement (I) : An exception to Mendel's law is linkage.

Statement (II) : Many traits are inherited in a non-Mendelian fashion.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

40 2940

4.0 1.00

Which genetic disorder causes the body to produce unusually thick mucus in the lungs and intestines?

1. Hemophilia
2. Down syndrome
3. Cystic fibrosis
4. Sickle-cell disease

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

41 2941

4.0 1.00

A gene contains 141 codons. How many nucleotides are present in the gene's coding sequence? How many amino acids are expected to be present in the polypeptide encoded by this gene?

1. 423 & 141
2. 420 & 140
3. 415 & 135
4. 400 & 110

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

42 2942

A woman has a rare abnormality of the eyelids called ptosis. This condition is caused by a dominant allele P. The woman's father had ptosis, but mother had normal eyelids. Her father's mother had normal eyelids. What proportion of the woman's children will have ptosis if she marries a man with normal eyelids?

1. 1/2
2. 1/3
3. 1/4
4. 2/3

A1 : 1

A2 : 2

A3 : 3

A4 : 4

4.0 1.00

Objective Question

43 2943

If four calves are born on a given day. What is the chance that two will be males and two will be females?

1. 3/16
2. 1/16
3. 2/16
4. 4/16

A1 : 1

A2 : 2

4.0 1.00

A3 : 3

A4 : 4

Objective Question

44 2944

4.0 1.00

Followings are the statements about the structure of DNA:

(A) $A + T = G + C$

(B) $A = G; C = T$

(C) $A/T = C/G$

(D) $T/A = C/G$

(E) $A + G = C + T$

Choose the **correct** statement/s from the options given below:

1. (A), (B) and (D) only.
2. (A), (B) and (E) only.
3. (A), (B), (C) and (D) only.
4. (C), (D) and (E) only.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

45 2945

4.0 1.00

Eukaryotic chromosomes metabolically are most active during which phase?

1. Prophase
2. Metaphase
3. Interphase
4. Telophase

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

46 2946

4.0 1.00

Given below are two statements:

Statement (I) : Eukaryotes have a 5' cap on their mRNAs; prokaryotes do not have the same.

Statement (II) : Messenger RNAs of eukaryotes generally have a 3' poly-A tail; prokaryotic mRNAs do not have the same.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

47 2947

Given below are two statements:

Statement (I) : 20^{146} amino acid sequences are possible in a polypeptide, which is 146 amino acids long.

Statement (II) : Four triplets do not code for any amino acid.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

4.0 1.00

Objective Question

48 2948

4.0 1.00

Inbreeding coefficient in the first generation when half sibs are bred is

1. 0
2. 0.062
3. 0.125
4. 0.25

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

49 2949

Given below are two statements:

Statement (I) : Regression of offspring on mid parents as compared to on one parent yields lower precision.

Statement (II) : Heritability estimates based on the full sib families are less précised as compared to half sib families.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A4 : 4

4.0 1.00

Objective Question

50 2950

4.0 1.00

Given below are two statements:

Statement (I) : Change in gene frequencies in erratic manner from generation to generation is called random drift.

Statement (II) : Random drift may lead to fixation or loss of entire genotypes in a population.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

51 2951

Given below are two statements:

Statement (I) : Mean environmental deviation in population as a whole is taken to be zero.

Statement (II) : The tangible environmental variation arises due to un-known causes.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

4.0 1.00

Objective Question

52 2952

4.0 1.00

Given below are two statements:

Statement (I) : Dominance deviations are interactions of within locus.

Statement (II) : Breeding values and genotypic values are the same in the absence of dominance.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

Objective Question

53 2953

Given below are two statements:

Statement (I) : Interaction deviations exist when genotype refers to more than one locus.

Statement (II) : Epistasis describes how gene interactions can affect phenotypes.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both **Statement (I)** and **Statement (II)** are correct.
2. Both **Statement (I)** and **Statement (II)** are incorrect.
3. **Statement (I)** is correct but **Statement (II)** is incorrect.
4. **Statement (I)** is incorrect but **Statement (II)** is correct.

Given below are two statements, one is labelled as **Assertion (A)** and other one labelled as **Reason (R)**.

Assertion (A) : Eggs need to be placed in vertical position (broad end up) in setter and horizontal in hatcher.

Reason (R) : Placing of eggs in horizontal position saves the space and allows proper chick development.

In light of the above statements, choose the *correct* answer from the options given below.

1. Both (A) and (R) are true and (R) is the correct explanation of (A).
2. Both (A) and (R) are true but (R) is NOT the correct explanation of (A).
3. (A) is true but (R) is false.
4. (A) is false but (R) is true.
