| PARENTING STYLES   | DESCRIPTION                                                                                                                                                                                                                     |
| (A). Authoritative | (I). This parenting is characterized by strict rules, high expectations, and little flexibility, often with an emphasis on obedience and discipline over warmth and nurturing.                                                  |
| (B). Authoritarian | (II). This parenting is characterized by a lack of emotional involvement, supervision, and support for the child's needs, resulting in an absence of guidance and nurturing that can be detrimental to the child's development. |
| (C). Permissive    | (III). This is a balanced approach that combines warmth, support, and guidance with clear expectations and reasonable discipline.                                                                                               |
| (D). Neglectful    | (IV). This parenting involves being very indulgent and lenient towards children, often lacking in clear rules and boundaries, which can lead to a lack of discipline and structure in the child's upbringing.                   |

Choose the **correct** answer from the options given below:

1. (A) - (III), (B) - (I), (C) - (IV), (D) - (II)

Given below are two statements, one is labelled as Assertion (A) and other one labelled as Reason (R).

Assertion (A) : Speciality stores are referred to as a Category Killers

Reason (R) : They offer complete assortment in a category, thus killing the category for other retailers in the vicinity.

In light of the above statements, choose the *most appropriate* answer from the options given below .

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct but (R) is NOT the correct explanation of (A).
3. (A) is correct but (R) is not correct.
