Given below are two statements, one is labelled as Assertion (A) and other one labelled as Reason (R).

Assertion (A): Marine elasmobranchs are slightly hyperosmotic to their environment.

Reason (R): Marine elasmobranchs have a considerable amount of urea and trimethylamine in their plasma.

In light of the above statements, choose the *most appropriate* answer from the options given below.

1. Both (A) and (R) are correct and (R) is the correct explanation of (A).
2. Both (A) and (R) are correct but (R) is NOT the correct explanation of (A).
3. (A) is correct but (R) is not correct.
4. (A) is not correct but (R) is correct.
