Match **List-I** with **List-II**

| List-I (Method)             | List-II (Estimation / Determination ) |
|-----------------------------|---------------------------------------|
| (A).Gravimetric method      | (I). Estimation of Nitrogen           |
| (B).Hydrometer method       | (II).Estimation of Organic Carbon     |
| (C). Walkley & Black method | (III). Estimation of Soil Texture     |
| (D). Kjeldahl method        | (IV). Estimation of Soil moisture     |

Choose the **correct** answer from the options given below:

1. (A) - (I), (B) - (II), (C) - (III), (D) - (IV)
2. (A) - (IV), (B) - (III), (C) - (II), (D) - (I)
3. (A) - (I), (B) - (II), (C) - (IV), (D) - (III)
4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Identify the Manganese containing minerals

- (A). Pyrolusite
- (B). Malachite
- (C). Manganite
- (D). Goethite

Choose the **correct** answer from the options given below:

1. Only A & B
2. Only B & C
3. Only A & C
4. Only B & D

A1 : 1

A2 : 2

## Objective Question

12412

4.01.00

Match **List-I** with **List-II**

| <b>List-I (Name of Founder)</b> | <b>List-II (Related Subject)</b> |
|---------------------------------|----------------------------------|
| (A). D. N . Walia               | (I). Nanotechnology              |
| (B). Richard Feynman            | (II). Soil Biology               |
| (C). Mason Vaugh                | (III). Agricultural Engineering  |
| (D). J. B. Boussingault         | (IV). Agrometeorology            |

Choose the **correct** answer from the options given below:

1. (A) - (I), (B) - (II), (C) - (III), (D) - (IV)

2. (A) - (II), (B) - (I), (C) - (IV), (D) - (III)

3. (A) - (IV), (B) - (I), (C) - (III), (D) - (II)

4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

|    |     |     |      |

Given below are two statements, one is labeled as Assertion (A), and the other one is labeled as Reason (R).  
Assertion (A): Within the same mineralogical composition, soils containing higher humus showed higher CEC.

Reason (R): Humic substances have different types of negatively charged functional groups with huge numbers.

In light of the above statements, choose the *correct* answer from the options given below.

1. Both (A) and (R) are true and (R) is the correct explanation of (A).
2. Both (A) and (R) are true but (R) is NOT the correct explanation of (A).
3. (A) is true but (R) is false.
4. (A) is false but (R) is true.

Given below are two statements, one is labelled as Assertion (A) and the other one is labelled as Reason (R).

Assertion (A): The notation of Munsell Colour Chart is 2.5YR5/6

Reason (R) hue is 2.5 YR, value is 5 and chroma is 6.

In light of the above statements, choose the *correct* answer from the options given below.

1. Both (A) and (R) are true and (R) is the correct explanation of (A).
2. Both (A) and (R) are true but (R) is NOT the correct explanation of (A).
3. (A) is true but (R) is false.
4. (A) is false but (R) is true.

Given below are two statements, one is labelled as Assertion (A) and other one labelled as Reason (R).

Assertion (A) : Kaolinite is the most preferred clay for the ceramic industry

Reason (R) : Kaolinite does not absorb water and expand

In light of the above statements, choose the *correct* answer from the options given below.

1. Both (A) and (R) are true and (R) is the correct explanation of (A).
2. Both (A) and (R) are true but (R) is NOT the correct explanation of (A).
3. (A) is true but (R) is false.
4. (A) is false but (R) is true.

Given below are two statements, one is labelled as Assertion (A) and other one labelled as Reason (R).

Assertion (A) : Soil temperature oscillations over a year penetrate deeper in the soil than over a day.

Reason (R) : Damping depth is proportional to angular frequency or period of oscillations.

In light of the above statements, choose the *correct* answer from the options given below.

1. Both (A) and (R) are true and (R) is the correct explanation of (A).
2. Both (A) and (R) are true but (R) is NOT the correct explanation of (A).
3. (A) is true but (R) is false.
4. (A) is false but (R) is true.

## Objective Question

|    |     |  |     |      |
|----|-----|--|-----|------|
| 70 | 470 |  | 4.0 | 1.00 |
|----|-----|--|-----|------|

Given below are two statements, one is labelled as Assertion (A) and other one labelled as Reason (R).

Assertion (A) : Carbon mineralization is tightly coupled to the release of minerals N, P, and S

Reason (R) : It is driven by microbial requirements for C and nutrients for their maintenance, growth, and the production of extracellular metabolites including enzymes

In light of the above statements, choose the *correct* answer from the options given below.

1. Both (A) and (R) are true and (R) is the correct explanation of (A).
2. Both (A) and (R) are true but (R) is NOT the correct explanation of (A).
3. (A) is true but (R) is false.
4. (A) is false but (R) is true.

The moisture content at which soil ceases to be plastic, becomes semi-fluid and tends to flow like a liquid

(A). Plastic limit

(B). Plasticity number

(C). Liquid limit

(D). Shrinkage limit

Choose the **correct** answer from the options given below:

1. (A), (B) and (D) only.
2. (C) only.
3. (A), (B), (C) and (D).
4. (B), (C) and (D) only.

A1 : 1

A2 : 2

A3 : 3

A4 : 4

## Objective Question

|    |     |     |      |
|----|-----|-----|------|
| 94 | 494 | 4.0 | 1.00 |
|----|-----|-----|------|

Match **List-I** with **List-II**

| List-I             | List-II  |
|--------------------|----------|
| Soil structure     | Ratings  |
| (A). Structureless | (I). 2   |
| (B). Moderate      | (II).3   |
| (C). Weak          | (III). 0 |
| (D). Strong        | (IV).1   |

Choose the **correct** answer from the options given below:

1. (A) - (II), (B) - (III), (C) - (I), (D) - (IV)
2. (A) - (I), (B) - (II), (C) - (III), (D) - (IV)
3. (A) - (I), (B) - (II), (C) - (IV), (D) - (III)
4. (A) - (III), (B) - (I), (C) - (IV), (D) - (II)

|-----|-----|--|-----|------|
| 114 | 514 |  | 4.0 | 1.00 |
|-----|-----|--|-----|------|

Options 1-4 are the different combinations of botanical pesticides. Which combination is a correct representation of the botanical pesticide Cinerin -II

1. Chrysanthemic acid + cinerolone
2. Pyrethric acid + cinerolone
3. Chrysanthemic acid + Pyrethrolone
4. Pyrethroic acid + Pyrethrolone

1. Option 1 is a correct representation of the botanical pesticide Cinerin –II
2. Option 2 is a correct representation of the botanical pesticide Cinerin –II
3. Option 3 is a correct representation of the botanical pesticide Cinerin –II
4. Option 4 is a correct representation of the botanical pesticide Cinerin –II

A1 : 1

A2 : 2

A3 : 3

A4 : 4

#### Objective Question

115 515

4.0 1.00

Match **List-I** with **List-II**

| List-I                                | List-II          |
|---------------------------------------|------------------|
| Column-A                              | Column-B         |
| (A). Principle of Pesticide Chemistry | (I). Herbicide   |
| (B). Albendazol                       | (II). Acaricide  |
| (C). trans-10-cis-12-hexadecadienol   | (III). Pheromone |
| (D). 2,4-D                            | (IV). S.K. Handa |

Choose the **correct** answer from the options given below:

1. (A) - (I), (B) - (II), (C) - (III), (D) - (IV)
2. (A) - (II), (B) - (I), (C) - (III), (D) - (IV)
3. (A) - (IV), (B) - (II), (C) - (III), (D) - (I)
4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

A1 : 1

A2 : 2

A3 : 3

A4 : 4

#### Objective Question

116 516

4.0 1.00

Find out the correct match (s)

- (A). Dichlorovos – Weedicide  
(B). Acephate – systemic Insecticide  
(C). Benzyl benzoate - repellent  
(D). 2 4-d – Weedicide

Choose the **correct** answer from the options given below:

1. A is correctly matched B, C and D are not correctly matched
2. A is incorrectly matched B, C and D are correctly matched
3. A, B, C and D are correctly matched
4. A, B, C and D are incorrectly matched

A1 : 1

A2 : 2

A3 : 3

A4 : 4

#### Objective Question

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |     |     |      |
